Item

99.1 Press release of Mesoblast Ltd, dated December 23, 2022.

MESOBLAST AND OAKTREE EXTEND AVAILABILITY PERIOD OF UNDRAWN TRanches OF FINANCING FACILITY

Melbourne, Australia; December 23 and New York, USA; December 22, 2022: Mesoblast Limited (ASX:MSB; Nasdaq:MESO), global leader in allogeneic cellular medicines for inflammatory diseases, today announced that funds managed by Oaktree Capital Management, L.P. ("Oaktree") have extended to Mesoblast the availability of up to an additional US\$30.0 million of its US\$90 million five year facility subject to achieving certain milestones on or before September 30, 2023.

Mesoblast drew the first tranche of US\$60 million in November 2021. The facility has a three-year interest only period, at a rate of 9.75% per annum, after which time 40% of the principal amortizes over two years and a final payment due November 2026. In consideration for the milestone extension period, Oaktree will receive warrants to purchase 455,000 American Depositary Shares (ADSs)¹ at US\$3.70 per ADS, a 15% premium to the 30-day VWAP². The warrants may be exercised within seven years of issuance.

About Mesoblast

Mesoblast is a world leader in developing allogeneic (off-the-shelf) cellular medicines for the treatment of severe and life-threatening inflammatory conditions. The Company has leveraged its proprietary mesenchymal lineage cell therapy technology platform to establish a broad portfolio of late-stage product candidates which respond to severe inflammation by releasing anti-inflammatory factors that counter and modulate multiple effector arms of the immune system, resulting in significant reduction of the damaging inflammatory process.

Mesoblast has a strong and extensive global intellectual property portfolio with protection extending through to at least 2041 in all major markets. The Company's proprietary manufacturing processes yield industrial-scale, cryopreserved, off-the-shelf, cellular medicines. These cell therapies, with defined pharmaceutical release criteria, are planned to be readily available to patients worldwide.

Mesoblast is developing product candidates for distinct indications based on its remestemcel-L and rexlemestrocel-L allogeneic stromal cell technology platforms. Remestemcel-L is being developed for inflammatory diseases in children and adults including steroid refractory acute graft versus host disease, biologic-resistant inflammatory bowel disease, and acute respiratory distress syndrome. Rexlemestrocel-L is in development for advanced chronic heart failure and chronic low back pain. Two products have been commercialized in Japan and Europe by Mesoblast's licensees, and the Company has established commercial partnerships in Europe and China for certain Phase 3 assets.

Mesoblast has locations in Australia, the United States and Singapore and is listed on the Australian Securities Exchange (MSB) and on the Nasdaq (MESO). For more information, please see www.mesoblast.com, LinkedIn: Mesoblast Limited and Twitter: @Mesoblast

Forward-Looking Statements

This press release includes forward-looking statements that relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. We make such forward-looking statements pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and other federal securities laws. Forward-looking statements should not be read as a guarantee of future performance or results, and actual results may differ from the results anticipated in these forward-looking statements, and the differences may be

¹ The warrants will be issued under a prospectus to be lodged with ASIC under which the warrants will be offered to Oaktree. The agreement to issue the warrants is subject to approval of Mesoblast shareholders if required at the time of issue for the purposes of the 15% placement limit in Listing Rule 7.1.

² The 30-day trading VWAP to December 2nd, 2022 is US\$3.22 per ADS.
